AMENDMENT  
(37 C.F.R. §1.115)

Please enter the following amendment:

IN THE SPECIFICATION:

VERSION WITH MARKINGS TO SHOW CHANGES MADE

Please amend the following paragraph beginning with:

Page 1, line 16.

United States Patents 5,806,736, 5,806,737, and 5,853,278 depict cargo carrying items which are connected to the trailer hitch of a vehicle and are swingable away from the vehicle along a vertical axis. In essence, such movement permits access to the rear of the vehicle and operation of a door of the vehicle in that area.

Page 5, line 22.

Another object of the present invention is to provide a vehicle hitch supported cargo carrier mechanism which includes a platform that is rotatable relative to the vehicle hitch and includes a position of fixation that is angularly measured relative to [the] a horizontal surface, permitting the user to gain access to the cargo door at the rear of a vehicle.
